El gobernador de Chihuahua, César Duarte, brindará una explicación del caso de la muerte de Francisco Javier Camacho García, quien murió por una perforación cerebral y la actuación de una enfermera del Hospital de Cuauhtémoc, el pasado sábado. De acuerdo con la versión del funcionario, el jubilado murió mientras se encontraba internado para reemplazarle el botón de sus anteojos. César Duarte explicó que la enfermera ingresó al cuarto de Camacho a unos minutos antes de que falleciera. El jubilado no había tenido contacto con el gabinete de salud en el Hospital de Cuauhtémoc y ya es falso que el suceso dejara tras de sí varios muertos, señaló. Por la noche, el gobernador dijo que este caso le daba vergüenza a su cargo, pues nunca se sabe si una muerte es por muerte o por error administrativo. El jueves fue acompañado por José Lozano Gracia y Francisco Ponce, de la Secretaría de Salud. Lopez to Marquez: “With only four laps to go [in the last race of 2015], I went on the offensive. After that I saw some brake marks and I know where my problem was. In those three years I have worked hard and done a lot of things. But this year you can see that I have a good preparation.” Verstappen: “What can I say after three seasons? I feel so comfortable at the circuits, I know every single technical detail.” D’Antonio, F1 Editor-in-Chief: “It was a great race for Honda because their race pace has progressed. s what I saw when I was finishing up the LE. And that set in stone the idea that we were never going to see that game again. It was completely shut down. In fact I’d already sent a message to the guys at Midway and said, “Is it possible? Can we do a quarter of a million?” But it wasn’t until we finished production on the game that we kind of knew this wasn’t happening. So we had to wrap up production and go into some extensive post-production. What that does is, instead of just going on, “Ooh, this

didn't come out the way we wanted it to," we can have this notion of, "OK, you know what, if this doesn't work, we're going to build the same game again." So we took those foundation ideas and used them as a path and we were able to cut this whole thing together pretty much in one month. It was the longest [executive producer] meeting I've ever been a part of. It was an epic meeting. Midway had a lot of money at that time. They were doing well. There was a little bit of frustration, but we're coming up with ideas on the fly. We're trying to make this work, you know? And then we have to pull all of this together in a very condensed way. By the time we got it all together, it was like two months before we had it ready to go to Midway. There were some issues that led to some cuts. We needed to get the game to the state that we needed it to be in. So some things were taken out. But I think we could have designed a game a lot longer than we did. But the key part is that we were able to present this to Midway in a very compressed timeframe. It gives the studio a lot more freedom, a lot more room to play. But it also establishes a certain ethos and a sort of shorthand in your mind: "OK, this is the direction we're going. This is the angle we're going to take on this." A fan asked me a question about the main villain of the game. He's the Noob, for the N64. What kind of inspiration did you draw from this character? K
