Freeplane Crack [32/64bit]

[Download](#)

Freeplane Crack+ [Win/Mac]

Freeplane is a software program that you can use to create mind maps. It can be used for brainstorming sessions at work, for example. There is also a portable edition available. Create comprehensive mind maps in practically no time. The interface of the app includes an intuitive layout where you can insert a multitude of elements into the mind map, such as a question

---

or exclamation marks, stars (e.g. for ratings), light bulbs (e.g. for ideas), information signs, numbers, flags and smiley faces. It is possible to create a new mind map from scratch by using a template. Freeplane supports multiple tabs, so you can work on multiple projects at the same time. Customize most aspects of your mind maps and export your projects to a wide array of formats. Aside from building and editing nodes (with HTML support), you can change the map background color, apply a style (e.g. floating node, topic, root), add hyperlinks and images, password-protect the mind map, as well as export it to HTML, JPEG, XML,

---

XLS, TXT or other formats. In addition, you can view map statistics, save all open maps to file, use a search and replace function, minimize nodes, change the edge color, manage time, tasks and addons, as well as edit and run scripts. A wide range of configuration options are available through the Preferences screen. For instance, you can customize the appearance (e.g. status line, default colors, selection colors) and reconfigure keyboard shortcuts. Efficient software solution for mind map creations The comprehensive program requires a pretty high amount of CPU and system memory to work properly. It has a good

---

response time and includes user documentation. No error dialogs have been shown throughout our tests and the app did not hang or crash. Thanks to its intuitive layout yet rich options, Freeplane should be able to please the entire audience. Freeplane is a software program that you can use to create mind maps.
