## Reduce Exe Free Download

Windows PE-files are used by many programs like MS Office, Autocad, Java,... This is the correct way to repair PE-files (upd. Sept. 11) However sometimes it's impossible to repair these PE-files because they are big and damaged. To repair this files is time consuming. This is why I have created this tool. After a few seconds all binary trash in PE-files can be removed. The function of this program is quite easy to use. It's not a difficult program to use and understand. If you have a difficult problem you can contact me. This program is FREE Usage: Execute Reducer.exe Click Start button in the toolbar Choose a file to reduce. Press the button START Wait until the operation is done The result is displayed in the main window. For more information see Help -> Tooltips All feedback will be gladly appreciated. The program was compiled for Delphi XE3 Download: Hackers: mmm.de/reduce Version 1.0  
Release Date: September 11, 2008 ----- Important note: The author can only be held responsible for this program! It's not tested! The author only created the program for fun and just for the benefit of the program. The program is tested! But unfortunately I have no more spare time to test it. ----- Best regards, Oliver Bruderer ----- Kontakt Fax: +49 31 5180 30 32 E-Mail: obruderer@gmail.com Donations -----  
----- If you find this program useful, please support me. The author is just a programmer who enjoys and loves to program. He's a hobby programmer. I'm not a rich programmer. ----- If you want to support me and you like this program, I would be very grateful. For this: €5,- will be required of course But that's nothing for you. ----- In case of a problem: ----- You may contact me by E-Mail: -----

## What's New In Reduce Exe?

Reduce Exe is a free and simple to use application for correcting Windows Portable Executable files. Here are some key features of "Reduce Exe":  
☑ Clear binary trash in headers of PE files  
☑ Erase section names  
☑ Remove relocations table  
☑ Examine the list of the export functions  
☑ Erase selected functions in export section  
☑ Reduce size of PE files  
☑ Prepare PE files for exe-packer  
☑ Reduce Exe is a DLL. You can use this in you own program. An exe is include. Sample to use the DLL: function Starte(datei:pchar;backup,no\_check:boolean);boolean;external reduce.dll'; Starte --> the function Datei --> is the file to reduce. For VB coder: datei isn't a string it's a PCHAR Backup --> true make a backup file. No\_Check --> true other file as EXE. At this time the DLL don't give back a result. Comes possible later. Reduce Exe is a modified version from StripReloc v1.10 Reduce Exe is a free and simple to use application for correcting Windows Portable Executable files.
