happens. Learn from teachers, administrators, and students who are piloting our digital tools to rethink the best way to structure a learning environment. Join us and subscribe to the Better Tech for the Better Classroom Platform for \$19.99 per month. [Click here to sign up now!](#)

Q: How to detect orientation of the android device I am working on an android app where I

need to show a Landscape view only on any Android device having a landscape orientation. On the other hand if the device has a portrait orientation then the view should be present for portrait only. Kindly help me in detecting the device orientation and present accordingly. Note: The app is purely made for Android. A: To have only landscape for portrait orientation the

easiest solution is to use auto-rotate enabled devices To achieve this just add this to your manifest.xml I've tested this, works flawlessly in phonegap. There are other ways you could implement this 648931e174

All solutions, BIM 360, Revit, 3ds Max and more, are available now. Install and activate a copy of.
