What is an appropriate way to fix this? Here's the method that I am trying to run: public static void WaitForClients(string waitForType, int maxConcurrentCount, int currentCount) { RunInBackground(); } private static void RunInBackground() { BlockingCollection clients = new BlockingCollection(); Task t = Task.Factory.StartNew(() => SearchClients(clients, waitForType)); clients.Add(waitingFor); // Failing here, the below error. } private static async void SearchClients(BlockingCollection clients, string waitForType) { int count = 0; string countString = ""; while (true) { countString += string.Empty; await clients.TryTake(out countString, TimeSpan.FromSeconds(10)); clients.Add(waitForType); count++; Console.WriteLine("{0} searches initiated", count); } } EDIT: As requested, more code: A: Instead of trying to convert an Action into a Func, convert it into a Task (assuming that you are using .NET 4 or later) and modify the
