"As a long-time fan of the Final Fantasy series, I was very excited to start playing the Elden Ring game. I was pleasantly surprised at how accessible this game was. The presentation is crisp and smooth, and the story is very compelling. At times, the game will seemingly have you holding your breath as you discover the mysteries of the game. I love the use of the "world" where you can explore the Lands Between in a 3D space. There are many areas to explore, and the map will actually change depending on the time you enter. It was refreshing to be able to wander around at my own pace, whenever I felt like it. I was especially excited by the combat system. The battles are very similar to those in the Final Fantasy games, but with some interesting twists. You have some level-based attacks that are extremely powerful, but they require a lot of stamina. You can also equip more than one item in the same slot, allowing you to customize your ability to use certain weapons or magic. I've been playing Elden Ring for a few hours and the world seems incredibly rich. The characters are all fascinating. As I explored the various settings, I could gain the feeling that I'm catching a glimpse of the world's history." REVIEWS TRADESFAN: "My verdict on the game: The game's presentation and mechanics are pretty solid, as I only encountered a few glitches. The art design is lovely and I love the characters' reactions. The game uses a dynamic world, which I didn't expect and I'm enjoying exploring the various areas. The battles are pretty awesome, too, and I'm enjoying the party system. The main plot is compelling, but I wish it had been told a bit more in-depth. It was hard to follow and I had a lot of questions going into the game. I'm hoping that a live service will allow for further content to be added, but I'll have to see. A final point: This game is relatively short. I felt like I had more to do than I actually did. Perhaps I'm missing the entire point here but I was really expecting to run into a lot more monsters, as this seems to be a standard for the game.
