Arcadian Rift is a challenging tabletop roleplaying game, where players can create their own unique character with choices for class, ability scores, and origin. The game uses an unconventional grid, which is 1 inch squares instead of being exactly 4 inches. In this way, characters are not as big, but they are balanced differently.

This makes it easier to snap to the same space. Arcadian Rift is designed for mature audiences, and is intended to be played more like a pen-and-paper RPG, while being very much a computer game.
