Education History In the first half of the 20th century, architectural design was done on hard-surfaced floors, mostly in wood.

Illustrations in black and white and later on in color were in the form of hand-drawn sketches, mostly using pen and ink. Before the invention of the drafting table, walls and doors had to be drawn manually in scale and then pasted on to one another. Engineers were involved in the development of the invention and the first commercial models went on sale in 1924. In 1938, drafting began to move from the office to the drawing table. In 1960, AutoCAD 1.0 was released. On April 15, 1983, AutoCAD 2.0 was released. It was the first fully integrated desktop-publishing tool and contained many innovative features, such as a 3D-environment, reverse-engineering, and virtual wire. AutoCAD 3D was released in 1996 and introduced many new features including 3D symbols, 3D surfaces, 3D stacking and other advanced features. It also introduced a completely new user interface. AutoCAD 3D is available as a stand-alone application. AutoCAD 2002 (originally AutoCAD 2002 Architectural Desktop or AutoCAD ARCH) was released in January 2002 and introduced a new style and modern interface. AutoCAD 2009 (originally AutoCAD ARCH 2009 or AutoCAD ARCH 2009) was released in October 2009 and introduced the ability to ca3bfb1094

So I have this problem. I have made a class that has a method get and set and another method save. I'm having trouble accessing those methods from another class, but it works fine if I just put the class name. For instance, if I type the class name into the console, it works fine. If I try to call one of the methods from another class, I get: "No value for get method or Set method, because property does not exist or because this property is not a settable property public class Bon : ICloneable { public Object get(Object object) { return null; } public void set(Object object, Object value) { Console.WriteLine("Set");
